

# Fritschi Diamir Freeride Pro / Eagle '10

## size SM/ML/XL

assemble here with  
other half of  
template

### For midsole position:

- check on your boot, whether the boot center mark is really in the middle (for some boots it isn't)
- align with scale on toe template to mid sole mark on ski
- when the template is fixed to the ski, check with your bindings and boots inserted, whether positioning is correct (also for screw positions)

only Freeride Pro
